

FACES UNEMPLOYED

Photos by Bill Burke, Cindy Truitt and Suzannah Hoover

The faces on these pages are IAM members across the United States and Canada who have lost their jobs in this mega-recession.

How many more IAM members will have to endure this kind of economic tragedy before the governments in the United States and Canada wake up and start investing in projects and programs that

will put these men and women back to work?

Call your legislators to demand a second stimulus program that will create JOBS Now! or go to www.GoIAM.org to send a message by email. North American families can't wait, they need JOBS Now! — not sometime in the distant future.
