[Hitting the Ground Running; Preparing for a Transportation Jobs-Heavy Agenda](#)

TTD's Executive Committee came together Tuesday to rally around an aggressive transportation jobs and investment agenda and to take dead aim at globalization and safety issues.

We focused like a laser on the need to counter the toxic agenda of political extremists—who gave us brilliant ideas like sequestration and the government shutdown—as a threat to our nation and irresponsible scapegoating of federal workers.

We also hosted special guests DOT Secretary Anthony Foxx, Rep. Frank LoBiondo (R-NJ) and Rep. Nick Rahall (D-WV).

You can read what they had to say, and details of the 10 policy actions taken by the Executive Committee in TTD President Ed Wytkind's [MOVEAmerica blog](#).
