

Congress of the United States
Washington, DC 20515

October 25, 2013

Stephen L. Johnson
Executive Vice President, Corporate and Government Affairs
US Airways
111 West Rio Salado Parkway
Tempe, AZ 85281

Dear Mr. Johnson,

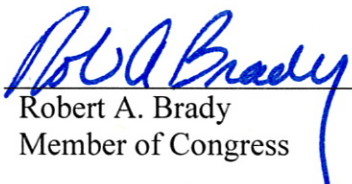

We write to urge US Airways to conduct its negotiations with your current employees in the International Association of Machinists and Aerospace Workers (IAM) in the same spirit as you conducted negotiations with other work groups.

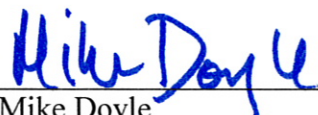

IAM members have been instrumental in building US Airways into the dynamic company it is today. They seek only to have an equitable contract as you move forward. Our constituents who work for you have expressed the concern that new co-workers may achieve better wages in the new company than they will. We hope that will not be the case.

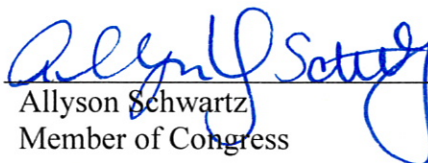

IAM members have been in negotiations with US Airways for well over two years. We urge you to bring them to a swift conclusion.

We hope that this situation will be resolved quickly and fairly.

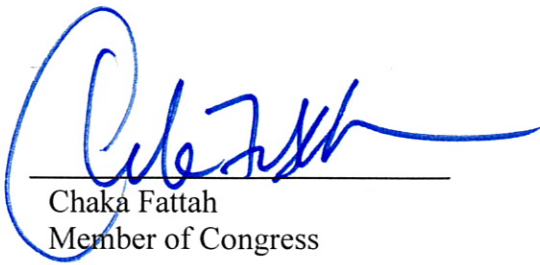

Sincerely,

Robert A. Brady
