

SAY NO TO FAST TRACK FOR TRADE DEALS CALL CONGRESS JAN. 21 1-855-712-8441

“Fast Track” trade promotion authority will hurt America. It is a license to continue the same failed trade and economic policies that have left working people behind for the past 20 years.

Costs Jobs: Trade policies adopted under Fast Track have cost us more than 1 million jobs and contributed to the shuttering of more than 60,000 factories.

Offshores Jobs: Current Fast Track legislation promotes “global value chains”—shorthand for offshoring production to places with weak labor and environmental laws and enforcement.

Harms Communities: Fast-tracked trade agreements have shut factories and devastated communities, forcing cutbacks in public schools, road repair, and police and fire protection.

TELL CONGRESS: NO FAST TRACK
