"I have learned a lot about responsibility while living on my own and time management. In TCU/IAU you're told "when you're early you're on time and when you are on time, you're late" that is really true. I am the first one at work and I am the first to clock in. All of my trainings and supervisors noticed that I am the first on the clock and they tell me that if everyone did what I did we'd be leaving early on the train. I know I am leaving a positive impression on my managers and my coworkers around me."- Danielle
