

## Expression of Solidarity from ver.di Germany to our colleagues in Puerto Rico

Dear colleagues,

The trade union ver.di and in particular the ver.di members at Lufthansa Technik in Germany support you in your fight for a collective labor agreement.

It is unacceptable that a German company wants to impose worse conditions for employees outside of Germany. We stand for good working conditions all over the world and send you our solidarity greetings.

As you can see in the photo below, our union representatives from Hamburg at the headquarters of Lufthansa Technik wish you much strength and perseverance.

In the last few days, we have also made it clear to management that we cannot accept that your overtime compensation should not be paid in accordance with the rules and that you should receive lower pay rises than colleagues elsewhere.

Hang in there, we stand by your side!

Christine Behle, vice chair ver.di and the ver.di members of Lufthansa Technik
